

Assessment & Advising

Chapter: Assessment & Academic Advising

Assess to guide learning, grade fairly, advise toward success.

Formative - Ongoing checks during learning - find gaps and adjust.

Summative - End-of-unit evaluation - verify learning.

Rubric - Criteria and performance levels - fair, consistent, transparent.

Grades - Based on defined criteria aligned with what you taught.

Feedback - A grade alone does not teach; pair it with specific guidance.

Advising - Track progress; meet strugglers early; help them plan.
