

## Educator Teams & School Culture

*Chapter: Educator Teams & School Culture*

Consistency, collaboration, and a culture you lift.

**Consistency** - Teach to shared standards - same rules, expectations, grading.

**Why standardized plans help** - They keep every educator on the same page.

**Collaboration** - Share what works; support each other; communicate openly.

**Disagreements** - Handled privately and professionally; keep students out of it.

**Culture** - The shared attitude and energy - and it is contagious.

**Your part** - Every staff member lifts the culture or drags it.
